SUMMARY

Human-centered AI builder and Computer Science graduate with experience shipping cross-platform AI products, conducting product and UX research in regulated banking, and leading measurable community programs. ACM-published researcher who combines Claude, computer vision, full-stack development, model evaluation, and technical storytelling to make complex systems useful to nontechnical users.

CORE SKILLS

AI and Engineering: Claude Haiku / Anthropic API, Roboflow RF-DETR, PyTorch, ResNet-50, TypeScript, React Native, Expo, Python, SQL, Supabase, PostgreSQL, REST APIs, Git, Vercel, EAS Build

Product and Responsible AI: Stakeholder Discovery, UX Research, Requirements, User Stories, Acceptance Criteria, Usability Testing, KPI Design, Agile/Scrum, Jira, Precision, Recall, F1, mAP, Failure-Case Analysis, Human Review, Uncertainty Design

PROFESSIONAL EXPERIENCE

Frost Bank

San Antonio, TX

Product Analyst and UX Research Intern, SMB Digital Portfolio

Mar 2025 – May 2026

- Designed and analyzed a 50-participant adopter-versus-control study; found monthly deposits increased 21%+ among feature adopters versus a 7% decline among non-adopters and translated the evidence into an onboarding recommendation.
- Defined a North Star activation metric, supporting KPIs, and a counter-metric; partnered with data analysts using SQL and Python and conducted funnel and gap analysis across 3 digital platforms to surface 4 prioritized friction points.
- Facilitated 12+ discovery and refinement sessions across product, engineering, design, data, compliance, and business teams; converted findings into user stories, acceptance criteria, Jira priorities, and readouts for 60+ stakeholders.
- Benchmarked 13+ financial institutions across treasury, real-time payments, embedded finance, dual control, fraud controls, and AI capabilities to inform SMB product strategy and roadmap decisions.

SELECTED AI PROJECTS

InverteQuest | Claude-Powered Freshwater Bioassessment Platform

Aug 2024 – Present

- Built and deployed a cross-platform field-science application using React Native, Expo, TypeScript, Supabase, Roboflow, and Claude Haiku to identify 13 freshwater macroinvertebrate taxa, log GPS-tagged specimens, and calculate Family Biotic Index and EPT stream-health metrics.
- Trained an RF-DETR object detector on 1,482 augmented images, achieving 83.9% mAP; integrated Claude through a secure server-side Supabase Edge Function to provide feature-based rationales and surface cross-model agreement or disagreement for human review.
- Implemented anonymous authentication, classroom monitoring, offline capture with queued synchronization, editable observations, secure API-key handling, and web/native deployment for student field use.
- Tested workflows with intended users, redesigned low-confidence and candidate-selection states, and documented deployment, model updates, troubleshooting, and maintainer handoff; combined-model accuracy benchmarking remains future work.

PortraAid | ACM Southeast 2025 Published Research

Sep 2024 – May 2025

- Co-developed a web-based AI portrait-composition assistant and co-authored a peer-reviewed ACM publication; trained and evaluated a multiscale ResNet-50 approach across 60,000+ images, achieving 91.84% held-out accuracy.
- Expanded evaluation beyond accuracy with precision, recall, F1, Grad-CAM, Integrated Gradients, and individual failure-case review, translating limitations into user-facing confidence, explanation, uncertainty, and human-judgment recommendations.

COMMUNITY LEADERSHIP, STORYTELLING AND RECOGNITION

Asian Student Association – Co-President | APIDA Cultural Night, Holi, Ramadan Nights

- Co-led recurring cultural programs with 5 partner organizations; grew available funding from approximately \$200 to \$4,000, coordinated 50+ volunteers, and regularly engaged 100+ attendees at major events.
- Formalized effective practices into a repeatable event-planning and leadership-handoff framework covering partner outreach, budgets, volunteer roles, timelines, debriefs, and transition guidance.

El Espejo – Award-Winning Photographer and Visual Contributor

- Earned 3rd Place in TIPA Environmental Portrait and SPJ Region 8 finalist recognition; contributed photography and visual storytelling to El Espejo during its national MediaFest recognition, including a 3rd-place magazine honor.

Additional Leadership and Recognition

- Earned 3rd Place for “Streetwear Across the World” at the 2026 San Antonio Honors Student Research Symposium; helped launch and produce Rec Sports’ inaugural Fright Film Fest; earned 2nd Place in HackUTD’s Frontier Internet track.

EDUCATION

Texas A&M University–San Antonio

San Antonio, TX

Bachelor of Science in Computer Science, GPA: 3.52, Cum Laude

May 2026

- Honors College | NSF S-STEM Scholar | DoD VICEROY Scholar | Presidential Leadership Class | Jaguar Ambassador | ACM Officer | CodePath Android
